

Outcomes Measures Application Release Notes

Version 2.2.0	
Issue	Description
48	System will not allow users to create a baseline until a client has been assigned to a program.
49	Program changes or disenrollment must be changed in the KEC Admin Info Section. Users are no longer allowed to add or edit a program to a client in Program page.
50	Inactive Date was removed from Add Program page.
51	Client Program Inactive Date is automatically updated in the Program page when a KEC Date of FSP Program Name is entered.
52	Client change is automatically updated in the Program page when a KEC New FSP Program Name is changed / disenrolled.
53	"New FSP Program Name" & "Date of FSP Program Name Change" fields will be disabled after saving the KEC assessment.

Version 2.1.1	
Issue	Description
43	Post login pop up window removed.
44	Browser back button disabled.
45	Baseline, KEC and 3M save buttons disabled after one click.
46	Edit Programs page time stamp is now system generated and field is disabled.
47	Default record page size on "My Assessments" and "My Team Assessments" has been changed from 10 to 100.

Version 2.1.0	
Issue	Description
39	Baseline, KEC and 3M "Assessment Completed By" and Assessment Date" moved to Begin Assessment pages.
41	Baseline Hospitalization / Crisis Stabilization page: "How many times?" field for "Did the client receive services..." changed to a calculated field. To calculate click "Total Services" button.
