Agenda Minutes:**I. Updates and Announcements**

- Action item follow-up and announcement since previous meeting

None

II. Review of Reports

- Update on progress of data reporting
- Aggregate Report Addendum FY 12-13

- How is data being utilized?
- What data/information may be helpful in future meetings?

Dr. Eckart went over the countywide aggregate report and discussed any changes in the outcomes data. He answered all related questions. Dr. Eckart reported approximately 2000 new clients claimed in the IS and 1200 or so of those claimed were entered in the PEIOMA. There was an increase in the number of clients diagnosed with Posttraumatic Stress Disorder since the last Seeking Safety learning network. He reported that the largest change of unable to collect reasons was "outcome measure unavailable" for both the YOQ and the PTSD-RI.

Dr. Eckart introduced the notion of two populations for Seeking Safety. One that started above the clinical cut-off and another that started below. Based on his analysis, there appeared to be a significant percent change for those clients starting above the clinical cut-off point for both measures. In addition, Dr. Eckart reported that since the last learning network there was a significant increase in the number of severe diagnoses being used (e.g., psychotic disorder).

III. Open Forum

Sermed went over the revised 8/1/13 Seeking Safety (SS) Guidelines; revised 8/5/13 SS Training Verification Form; and informed participants of the revised 8/1/13 frequently asked questions. In addition, Sermed provided more information on the SS Champion Training; Theme Based Calls; and SS Card Decks and posters. He answered all related questions.

IV. Next PPLN Meeting

Please email proposed future agenda items to: PEIOutcomes@dmh.lacounty.gov

Date/Time/location of next meeting TBD
